The Italian Medical Charity is here to help you.
Since its formation the charity has made grants to over 2000 separate cases
to those needing financial help with their medical problems

SOME EXAMPLES OF WHAT THE IMC DOES:-

1. Aid you to acquire some services or treatments not provided by the NHS or other government agencies.
2. Provide funds to aid a period of respite to long term carers
3. Give help for a disabled person to retain their independence.
4. Provide a grant to help you purchase specialist furniture.

This list is an example of where we can help; it is not exhaustive as everyone has differing problems and requirements for a different solution. We look to aid you in your solution in providing a financial grant. Each case will be considered separately upon its own merits. The trustees may need to contact your GP and/or other official bodies who have supported your application; we will require your consent to do this.

HOW TO APPLY:-

1. Send a letter to our address above, explaining your need of surgical, medical or rehabilitative treatment. This should include how much money you require for your problem and why you cannot receive this treatment on the NHS. Please be as specific as possible.
2. Provide a supporting letter from your GP.
3. If appropriate, provide a letter from your Hospital or Specialist Consultant, Occupational Therapist, Social Worker or other official body, explaining your requirements.
4. Complete and sign the medical consent form, if appropriate, for the trustees to contact your GP, Specialist etc.
5. Include any further information to support your application.
